

LARK & STERN
CORE SERVICES PTY LTD.

April, 2025

Re: L&S HIRING NOTICE – INDUSTRIAL ENGINEER [FUNCTIONAL ROLE]

Lark & Stern Core Services Pty Ltd. is looking for applicants interested in working in a forward-thinking, fast-paced and dynamic environment, where they will be exposed to a diverse range of applications and software products.

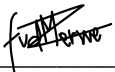

Successful applicants can expect to be part of an intimate network of talented developers and software innovators, where they will learn new skills and find value in their contributions to a variety of industries including Life Sciences, Biologics and Pharmaceuticals.

Our clients usually have an established and validated enterprise resource planning (ERP) system using SAP software (the “ERP System”). As part of our usual scope there's requirements for enhancing business operations and streamlining drug formulation processes. Our involvement extends to enabling business growth within the drug manufacturing area which includes designing formulation, bio harvesting, mixing and filling processes.

We are looking for resources to help with drug formulation, design and analysis, process flow and mapping definition, functional design and documentation, requirement gathering as well as client support and workshop facilitation.

Lark & Stern's head office is located in Pretoria, South Africa. This position will be for an in-office position in Pretoria.

Kind regards,

Frieda van der Merwe – Internal Operations Manager
